

about Briana.

nice to meet you!

A handwritten signature of the name "Briana" in a cursive script.

Briana was diagnosed with DMG in the summer of 2023 at the young age of eight, and subsequently experienced more medical intervention than some people see in their lifetime. Facing difficult times with an amazing amount of courage is a testament to her incredible spirit; she rang every bell, raced through hospital wings with doctors, and proudly held signs celebrating each victorious battle she won. Experiencing symptoms, chemotherapy, radiation, clinical trials, travels to treatment, and physical decline, she remained resilient and joyful. Brianna's personality was a beautiful compilation of compassion, cleverness, a bright sense of humor and kindness.
